

## Protect your family, your credit, and yourself.

*Ask about Payment Protection Insurance Today*

Your purchase of PPI is optional. Whether or not you purchase PPI will not affect your application for credit or the terms of any existing credit agreement you have with the financial institution. There are eligibility requirements, conditions, and exclusions that could prevent you from receiving benefits under PPI. You should carefully read the contract for a full explanation of the terms.

*Payment Protection Insurance*

## Certainty in an uncertain world

## PAYMENT PROTECTION INSURANCE (PPI)

*can pay your bills so you don't have to*

Even the most responsible person can be hit with bills they can't pay—causing damage to their credit score and even repossessions—when unexpected illness, injury, or death puts a paycheck out of the picture.

When you add PPI to your loan, or other obligations, you help take the risk out of the unexpected. If you can't work because of an illness, injury, or death, PPI in most cases will...

- Make your monthly payments or pay off your loans
- Protect your credit rating
- Prevent late fees
- Protect your family and your possessions
- Free-up extra cash when it's needed most
- Pay benefits in addition to any other insurance you may have

Enrollment is easy because there's no medical exam.

### **EVERY TWO SECONDS, "IT CAN'T HAPPEN TO ME" HAPPENS\***

Whether around the house, on the job, or just being in the wrong place at the wrong time, someone suffers a disabling injury every two seconds. Meanwhile, every day, 350 people die from an accident they never saw coming, and every year, nearly 300,000 people become unable to work because of illness.

With PPI, you can have your covered loans paid for you when you need it most. It's peace of mind that's affordable and part of your regular payment. So you'll hardly even know it's there – *unless you need it.*

*See your loan officer or service representative today to find out more about PPI.*
